

A Message in regard to St. Francis Cemetery

Dear Friends,

You may have loved ones at rest in our beautiful little cemetery. Or maybe you have already purchased your own final resting place there.

One of the most charming aspects of St. Francis Cemetery is the sweet white picket fence that graces the front of it. Sadly, the 35 year old wooden fence is deteriorating to the point that we need to replace it.

If you are one of the handful of faithful volunteers who turns out to scrape, sand, primer, and paint it every few years, you know how much effort has gone in to maintaining it. But now the wood is rotting and painting it again just won't hold it together.

Because we all love the look, we have asked for a quote to replace it with a white picket vinyl fence that will have the same warm, welcoming look and will last for years but will require little maintenance. The price would be \$20,000.

Would you please prayerfully consider making a donation to help cover the cost? Any amount will be appreciated.

God bless you for your generosity.

Fr. P. Watson

Rev. Watson Paramasivam, H.G.N.
